

1. V. Mazzarello: Anthropological, histological and immunohistochemical study of Castelardo's mummies
2. R. Golmohammadi: The study of styles learning students in anatomical education by problem based learning and lecturing in Sabzevar University of medical sciences
3. G.M. Gruber: **How to examine many students fast, objective and hands-on anatomical specimens?**
4. T. Jennison: **A study comparing anatomy knowledge of students with an interest in surgery and those without**
5. T. Jennison: **A comparison of foot anatomy in medical students and surgical trainees**
6. R. Zagyan: The opinions of medical students on phase I anatomy education: a preliminary study
7. D. Kluchova: A new textbook of human body for dental students
8. A. Ahmed: Prediction of stature using hand and foot dimensions
9. A. Bolekova: Lectures for medical students using virtual projections
10. R.V. Yildirim: Ethical approach of medical students to anatomy practice
11. I. Ralli: Head and neck injuries in Homer's Iliad
12. P. Schlumm: **Anatomical and terminological knowledge of Paramedics in Austria**
13. A. Jurjus: Assessing the emotional impact and perception of human body dissection by medical students at the American University of Beirut
14. A. Mavrodi: Historical overview of paranasal sinuses' anatomy
15. R. M. Khayrullin: Effect of prenatal androgenisation at finger length and 2D:4D digit ratio of laboratory mice
16. B. Krstonosic: Morphometric analysis of the human occipital condyles
17. J. Miletin: Julius Tandler: a Mid-European
18. T. Talaei: The effect of composition of the culture media on mouse embryonic stem cells differentiation to germ cell development
19. J.S. Rad: Anticancer drugs and male germ cell apoptosis
20. M. Kenschake: **Anatomical mapping of the mimic nasal muscles with regard to plastic and aesthetic surgery**
21. D. Sivrev: Comparison between P40 brain slice and CT images
22. B.M. Cristea: Treatment of spinal disc herniation using the ozone nucleoplasty technique
23. I. Zastavnyy: Lectin histochemical research of chorionic villi of human embryos in early pregnancy loss
24. I. Kagan: Computed tomographical anatomy of the retroperitoneal space
25. M. Steffl: Increased LRP1 (LDL receptor-related protein 1) expression is associated with endometrial remodelling in the pig
26. M. Schweiger: Detection of secretory immunity and morphological characterization of the equine ureteric glands
27. M. Milosevic: Age at menarche, duration of reproductive period and metabolic syndrome in normal weight and obese women
28. C. Pelin: Effect of socio-economical status on stature estimation from hand dimensions
29. D. Ilescu: Potential correlations between the shape and the dimensions of the intervertebral foramen and lower back pain
30. G. Jordan: Notes on the growing rate of the carpal bones
31. D. Ilescu: Patterns of reaction of the lumbar vertebral column to mechanical load
32. R.M. Khayrullin: The variability of osteometric parameters of tubular bones of the human hand in depending from morphological type
33. R.M. Khayrullin: Osteometric and physical variability of the human foot bones
34. N. Kostyshyn: Occurrence of spinal deformities in adolescents living in Prykarpattya region

35. R. Selthofer: Analysis of biomechanical properties of patellar ligament graft and quadruple hamstring tendon graft
36. J.M. Rojo-Manaute: About the absence of musculocutaneous nerve
37. N. Inhoff: **Assessment of the accuracy of two anatomical bony landmarks on the neck: the vertebra prominens and Chassaignac's tubercle on the test stand**
38. T. Totlis: Two large processes at the acromial end of a clavicle: an unusual osteological finding
39. S. Lutsyk: Experimental hypothyroidism induces decreased exposure of  $\alpha$ DMan and  $\alpha$ LFuc carbohydrate determinants in rat adrenal gland
40. R. Golmohammadi: Determination of allelic polymorphism in codon 72 of the p53 gene associated with ductal breast carcinoma in Sabzevar
41. M. Kapitonova: Age-related modulation of the hypothalamo-hypophyseal-adrenal and thyroid axes in stress
42. W. Kienzl: **Determination of target point for transpedicular screw placement in the lumbar spine**

43. S. Al Dorazi: Sciatic artery aneurysm: a cause of ischaemic proctitis?
44. S. Al Dorazi: Sexual dysfunction and perineal infarction: clinical features of sciatic artery aneurysm syndrome
45. F. Al Ibrahim: A review of retropubic arteries in pubic fracture
46. W. Al Talalwah: A review of deep femoral artery characteristics in association with a coexistence of sciatic artery
47. W. Al Talalwah: Paralysis of lower limb in sciatic artery aneurysm
48. A. Yakimov: Fetal anatomy of the papillary muscles in the right ventricular posterior angle
49. B. Filipovic: The influence of the delta 9 tetrahydrocannabinol to the morphology of the medium size neurons of the accumbens nucleus of the rat
50. A. Kürkcüoğlu: Anatomic variations of the common hepatic artery with digital subtraction angiography
51. K. Natsis: Ectopic origin of a bronchial artery: case report and clinical significance
52. E. Geldenhuys: **Mean cardiac valve circumference measurements in a cadaver population at the Faculty of Medicine and Health Sciences, Stellenbosch University**
53. L. Kocbek: **Anatomical and morphometric characteristics of posterior intercostal arteries as arterial grafts for myocardial revascularization**
54. P. Schlumm: **Does the Body Mass Index influence the Position of the Internal Jugular Vein?**
55. M.F. Filipoiu: Morphological study of the heart with Hypoplastic Left Heart Syndrome
56. M.F. Filipoiu: A study of a deep venous channel from the vestibular wall of the right atrium
57. C.M. Tanasi: Correlations between cerebral oxygen desaturation and neuropsychological dysfunction in patients undergoing cardiac surgery
58. M. Alfaouri-Kornieieva: Vascular relations of the infratemporal fossa in age related aspect
59. K. Vymetalova: **Vessels with a high risk of injury in pelvic fractures- an angiographic study**
60. M. Jakub: **Clinical remarks and meta-analysis to the arterial supply of the thumb**
61. M. Alfaouri-Kornieieva: Morphology of the vertebral artery in Asian population
62. S.N. Biasutto: Brachiocephalic trunk anomalies and variations
63. C. Dina: Morphological differences of the middle hepatic vein upon gender
64. A. Cobzariu: Territories of supply of the inferior mesenteric artery
65. S. Ispas: Compared study of the right and left ending level of the common iliac arteries
66. I. Iorga: Morphological assessment on the origin of the artery of the inferior renal segment
67. P. Bordei: Assessment on the morphometry of the aortic arch
68. P. Bordei: Clinical significance of the ending level of the abdominal aorta
69. J.N.S. Aziz: Anatomical study of the arterial perforators of the gluteal region and its surgical implication
70. D. Lyashchenko: **Clinical anatomy of the heart and main vessels of the mediastinum of the person in early fetal period of human ontogenesis**
71. E. Geldenhuys: **The prevalence of emphysema in association with pulmonary tuberculosis in a cadaver population: a morphological study**
72. N. Dimitrov: Mast cells at the BAP ST36 in rats
73. J.L. Danilovic: Apoptosis of the oocytes of hypothyroid neonatal rats
74. I. Dumic-Cule: **Rats with removed thyroid and parathyroid glands in osteoporosis research**
75. M. Kapitonova: Homo- and heterotypic stressor-induced immunosuppression in the growing body
76. O. Adamovych: Association between osteoporosis and no-related metabolic disorders in rats
77. M.A. Kus: Melatonin prevents hippocampal oxidative damage induced by pinealectomy in rats
78. Kh.I. Strus: Influence of maternal experimental hypothyroidism on quantitative-qualitative

indicator of rat progeny skin mast cell in age aspect according to biochemical investigation results on the base of lectins' GNA and PNA receptors cytotopography

79. R.F. Kapustin: The formation of Russian comparative-anatomical lexicon in XVIII-XIX cc.
80. Y.R. Soguiko: Morphofunctional characteristics of rat liver in normal and diabetes in experiment
81. V.V. Frolov: Basis of forecasting the formation of acclusion in dogs
82. M. Majidy: Assisting of apoptotic expression hippocampus in adult rat (Bcl-2, Bax, caspas3, p53) follow the transient ischemia

83. A. Lübbers: Venous valves of the superior genicular vein
84. L. Hirtler: Age-related changes of the intercondylar notch and the distal femur
85. L. Hirtler: Development of the anteromedial ridge in the intercondylar notch
86. M. Dreu: The groove of the trochlea of talus
87. C. Dolcet: Final results of the course of the anterior and posterior interosseous nerve of forearm in relation to adjacent structures
88. C.A. Peterson: Anatomical Differences in the shape of the male and female carpal tunnel
89. K. Bertl: A human cadaver CT-study on the course of the inferior alveolar arteries
90. V.I. Ferents: Correction of pain sensitivity of surgical dental patients with “alpharia” apparatus
91. A.G. Mustafa: Morphometric analysis of palatal rugae among Jordanians: further evidence of palatal individuality
92. N. Shtybel: Regularity of age-related changes in osseous tissue density of lower jaw in persons of different sex
93. M. Kondic: Anatomic Study of the Innervation of the Lingual Gingiva as a Basis of the Local Neurolysis
94. N. Bianco: Maxillary sinus lift: Summers' versus a piezo-electric technique.
95. K. Ryzhuk: Peculiarities of structural reconstruction and mineral content dynamic of hard tissue of dentomandibular area in age aspect
96. I. Stupnytskyi: The analysis of frequency of different kinds of maxillo-dental anomalies in age aspect
97. O. Karaca: Reduction of carbon tetrachloride-induced liver injury in rats by omega-3-fatty acids
98. T. Harsovescu: Liver histological changes associated with oxidative stress in experimental portal hypertension
99. I. Kagan: Anatomical differences of the epithelium in the esophagogastric transition and their clinical value
100. B. Esmacilzade: Adult neurogenesis of epidermal neural crest stem cells (EPI-NCSC) in hippocampus of Alzheimer's rats model
101. F. Al Ibrahim: Peroneal syndrome
102. N. Djukic-Macut: Quantitative comparison of some macro- and microanatomical characteristics of human lobulus parietalis superior cortex
103. N. Djukic-Macut: Quantitative comparison of some macro- and microanatomical characteristics of human precuneus cortex
104. B.A. Lázár: Vagal afferent innervation of the pancreas: autopsy, quantitative immunohistochemical and morphometric findings
105. K. Natsis: Supraclavicular nerve perforating the clavicle: an anatomical study in 71 cadavers
106. T. Saito: Analysis of the posterior ramus of the lumbar spinal nerve
107. C.F.C. Leone: Aging effects on phrenic nerve morphometry
108. M. Safari: The effects of GH, EGF and PDGF-BB on keratinocytes cells of rat
109. I. Sladojevic: Quantitative analysis of arterial network of extraocular motor nuclei
110. J. Trifunovic: Nucleus caudatus - development, histological and immunostaining characteristics
111. B.M. Cristea: The striate body- internal border zone of the cerebral vascularisation
112. T. Bacova: Visualisation and identification of immunocompetent cells in human cornea
113. J. Mrzilková: Changes in volume of the fornix in patients with AD
114. M. Miha: Morphometrical evaluation of Caspase 3 tissue marker expression in prostatic adenocarcinoma and its relation to clinical data and apoptosis
115. M.L. Dusica: Fusion of axis with the fourth cervical vertebra - a case report

116. B. Maurer: A two-headed (biceps) sartorius muscle in a male cadaver
117. I. Zubko: Morphological Displays and clinical epidemiological aspects of morbidity of mumps
118. A. Galuza: **The morphological status of the cerebral cortex, liver, gut mucosa and spleen in cases of Sudden Infant Death Syndrome victims**
119. V. Mazzarello: Study of skin texture in centenaries with a new 3D technique
120. G.K. Paraskevas: Dual innervation of the trapezius muscle by the spinal accessory nerve and the cervical plexus: a case report
121. T. Troupis: Combined variations of superior mesenteric artery branches
122. M. Piagkou: An anatomical study of Wormian bones in Greek modern population
123. K. Natsis: Ossified bony bridges of the middle cranial fossa in Greek skulls: their clinical relevance
124. K. Natsis: An anatomical study of the ossified sphenoid ligament near the foramen ovale: their clinical relevance
125. M. Piagkou: Incidence of the metopic suture in adult greek population of the 20<sup>th</sup> century
126. M. Piagkou: Emissary foramina of the skull: an anatomical study of their incidence, morphology and clinical importance in the greek population
